- SDLC Tools:
 - JIRA, Salesforce, Asana, Basecamp, Trello

OTHER SKILLS

- Communicator/Adaptive
 - Regularly revamping entire sections of code to accommodate requests
- Supportive
 - Investigating and debugging errors with strong understanding of code

WORK EXPERIENCE

WEB DEVELOPER II

Q4 Inc. | July 2021 – May 2023

- Developed exceptional Investor Relations websites for clients from a wide variety of industries in proprietary CMS using HTML, CSS/SCSS, Javascript and jQuery.
- Built page modules with the company API to develop custom modules outside the default functionality of the company API.
- Developed sites that meet accessibility standards that are at least WCAG 2.1 (Level AA) compliant.
- Collaborated with other developers to complete redesign projects for large companies/contracts such as PayPal.
- Provided technical support (Bug Fixes /Changes) to existing clients related to their websites.
- Constantly sought out and volunteered to take on smaller projects to maximize the department's output and to help balance workloads for other developers and product managers.
- Worked within an agile/scrum team and collaborated regarding layout, functionality and user interface interactions.
- Developer tools include Jira, Asana, Figma, GitHub, BugHerd, Everhour.
